### 'Forest Pansy' Eastern Redbud (*Cercis canadensis* 'Forest Pansy')

'Forest Pansy' Eastern Redbud is a moderate to rapid-grower, 15 to 20 feet in height, which has red twigs and beautiful, shimmering, purple/red new leaves, which fade to purple/green during the summer. The veins on the backs of the leaves are a deep maroon and make a striking contrast with the light grey/green leaf. The splendid, purple/pink flowers appear all over the tree in spring, just before the leaves emerge. 'Forest Pansy' Eastern Redbud has an irregular growth habit when young but forms a graceful, flat-topped, vase shape as it gets older.
