RE: Bid #9761-1 Public Bathroom Gate Fabrication and Installation PROTEST

Harris Steel Fence Co protests Modern General Contractor Inc and VSI Technologies as having non-responsive bids. VSI Technologies did not attend the mandatory job walk so therefore they cannot submit a responsive bid and should be thrown out. Nor do they have a proper license to submit a bid per the contract documents. Modern General Contractor Inc holds a B license which states that they would need 2 subcontractors to bid this project and have a responsive bid. They only listed one subcontractor, Barca Ironworks Inc, whose DIR# has been expired since 6/30/24. Therefore, they cannot be listed as a responsive subcontractor. Attached are Barca Ironworks expired DIR # and a note showing that all B licenses require 2 subcontractors to work on an unrelated trade. We would like to request that both of these bids by Modern General Contractor Inc and VSI Technologies be listed as non-responsive. Thank you.

Sincerely,

Daniel Blanciak
Vice President

AI Overview

In California, a Class B General Building Contractor license allows a contractor to oversee projects involving two or more unrelated building trades, like plumbing, electrical, or carpentry. This license is required for projects where the total cost (labor and materials) is \$500 or more and involves more than one trade, or if the project requires a building permit. [🔗](#)

Key aspects of the B license:

Scope of work:

A Class B license allows a contractor to build or remodel structures, including those for human habitation. This includes framing, carpentry, and other trades involved in building or remodeling projects. [🔗](#)

Experience requirement:

Applicants typically need at least four years of verifiable journeyman-level experience in general building or residential remodeling, which includes framing or rough carpentry and at least two unrelated core trades. [🔗](#)

Exam requirements:

Applicants must pass two exams: a law and business exam and a trade-specific exam covering general building construction. [🔗](#)

Bonding and insurance:

A \$15,000 contractor's bond is required, and proof of workers' compensation and general liability insurance may be needed. [🔗](#)

In essence, a Class B license enables you to:

- Be a prime or sub-contractor on framing or carpentry projects. [🔗](#)
- Oversee projects that involve two or more unrelated building trades. [🔗](#)
- Manage all trades involved in a construction project, ensuring seamless

include at least two unrelated trades in a prime contract to work on other trades besides framing or carpentry. [↗](#)

- If the project mainly involves residential remodeling without framing or rough carpentry, a B2 Residential Remodeling license might be more suitable. [↗](#)
