Dear Planning Commission,

Variances, Waivers, Exceptions, and Exemptions. These are a few of the words we hear all too often when projects are being considered by the Planning Commission and the City Council.

As we begin to update our General Plan it is my hope that, working together, we can construct and agree on a reasonable set of policies, codes, and rules that will be adhered to - rather than a loose set of "suggestions" that are ignored or waived whenever it's convenient.

Thank you,
Andrea Lingle
