## **7. CITY'S RESPONSIBILITIES**

To assist Consultant in the execution of its responsibilities under this Agreement, City agrees to provide access to and upon request of Consultant, one copy of all existing relevant information on file at City. City will provide all such materials in a timely manner so as not to cause delays in Consultant's Work schedule.

## **8. STANDARD OF CARE**

8.1 All of the Services shall be performed by Consultant or under Consultant's supervision. Consultant represents that it possesses the professional and technical personnel required to perform the Services required by this Agreement, and that it will perform all Services in a manner commensurate with community professional standards and with the ordinary degree of skill and care that would be used by other reasonably competent practitioners of the same discipline under similar circumstances. All Services shall be performed by qualified and experienced personnel who are not employed by City. By delivery of completed Work, Consultant certifies that the Work conforms to the requirements of this Agreement, all applicable federal, state and local laws, and legally recognized professional standards.

8.2 Consultant represents and warrants to City that it has, shall obtain, and shall keep in full force and effect during the term hereof, at its sole cost and expense, all licenses, permits, qualifications, insurance and approvals of whatsoever nature that is legally required of Consultant to practice its profession. 8.3 Consultant shall not be responsible for delay, nor shall Consultant be responsible for damages or be in default or deemed to be in default by reason of strikes, lockouts, accidents, acts of God, or the failure of City to furnish timely information or to approve or disapprove Consultant's Work promptly, or delay or faulty performance by City, contractors, or governmental agencies.

## **9. HOLD HARMLESS**

9.1 To the fullest extent permitted by law, Consultant shall indemnify, defend and hold harmless City, its City Council, boards and commissions, officers, agents, volunteers and employees (collectively, the "Indemnified Parties") from and against any and all claims (including, without limitation, claims for bodily injury, death or damage to property), demands, obligations, damages, actions, causes of action, suits, losses, judgments, fines, penalties, liabilities, costs and expenses (including, without limitation, attorneys' fees, disbursements and court costs) of every kind and nature whatsoever (individually, a Claim; collectively, "Claims"), which may arise from or in any manner relate (directly or indirectly) to any breach of the terms and conditions of this Agreement, any Work performed or Services provided under this Agreement including, without limitation, defects in workmanship or materials or Consultant's presence or activities conducted on the Project that to the extent are caused by the negligent, reckless, and/or willful acts, errors and/or omissions of Consultant, its principals, officers, agents, employees,

vendors, suppliers, consultants, subcontractors, anyone employed directly or indirectly by any of them or for whose acts they may be liable, or any or all of them, and/or if it is subsequently determined that an employee of Consultant is not an independent contractor.

9.2 Notwithstanding the foregoing, nothing herein shall be construed to require Consultant to indemnify the Indemnified Parties from any Claim arising from the sole negligence or willful misconduct of the Indemnified Parties. Nothing in this indemnity shall be construed as authorizing any award of attorneys' fees in any action on or to enforce the terms of this Agreement. This indemnity shall apply to all claims and liability regardless of whether any insurance policies are applicable. The policy limits do not act as a limitation upon the amount of indemnification to be provided by Consultant.

## **10. INDEPENDENT CONTRACTOR**

Consultant shall have the responsibility for and control over the means of performing the Work, provided that Consultant is in compliance with the terms of this Agreement. Anything in this Agreement that may appear to give City the right to direct Consultant as to the details of the performance of the Work or to exercise a measure of control over Consultant shall mean only that Consultant shall follow the desires of City with respect to the results of the Services.

10.2 Consultant agrees and acknowledges that no individual performing Services or Work pursuant to this Agreement shall: work full-time for more than six (6) months; work regular part-time service of at least an average of twenty (20) hours per week for one year or longer; work nine hundred sixty (960) hours in any fiscal year; or already be a CalPERS member.

## **16. SUBCONTRACTING**

The subcontractors authorized by City, if any, to perform Work on this Project are identified in Exhibit A and the Letter Proposal. Consultant shall be fully responsible to City for all acts and omissions of any subcontractor. Nothing in this Agreement shall create any contractual relationship between City and any subcontractor nor shall it create any obligation on the part of City to pay or to see to the payment of any monies due to any such subcontractor other than as otherwise required by law. City is an intended beneficiary of any Work performed by the subcontractor for purposes of establishing a duty of care between the subcontractor and City. ## **SCOPE OF SERVICES**

## ON-CALL PROFESSIONAL PLANNING SERVICES— STAFF AUGMENTATION (NO. 25-39)

### **Approach/Understanding of Service(s) to Be Provided**

#### **Understanding**

The City of Newport Beach is seeking to establish a flexible, reliable, and highly qualified bench of consultants to provide on-call professional planning services and staff augmentation for its Community Development Department. The City is looking for consultants with a strong command of a broad range of planning tasks—including the review of discretionary planning applications, preparation of CEQA documentation, staff reports, and public notices as well as community engagement and participation in public hearings. A primary objective is to enable the City to respond swiftly to fluctuating workloads while upholding the high standards of quality, timeliness, and professionalism that define its planning services.

Kimley-Horn brings a proven track record of working with the City on a variety of projects, including the recent Housing Element update and multiple CEQA assignments. Our team has a deep understanding of the City's municipal code, discretionary review procedures, and permitting processes. We are well-versed in the complexity of processing applications in a jurisdiction with layered zoning districts, coastal regulations, and a highly engaged community. Our planners have successfully prepared and presented staff reports to Planning Commissions and City Councils and are adept at navigating community sensitivities and multi-agency coordination—including with the California Coastal Commission, the John Wayne Airport Land Use Commission (ALUC), and Caltrans.

We regularly prepare categorical exemptions, initial studies, and technical analyses that reflect both CEQA requirements and local policy objectives. Our team is currently providing discretionary application review services for the Cities of Fairfield and Seaside as well as the County of San Bernardino. Many of our planners work on both public and private projects, allowing them to seamlessly transition between entitlement package preparation and review of civil, utility, landscape, and traffic plans. This includes drafting specific plans, preparing application materials, and evaluating consistency with General Plans. Our staff also routinely develops site investigation reports and conducts detailed municipal code reviews as part of development feasibility assessments.

The City is also seeking support for long-range and policy planning efforts, including technical documentation for the General Plan and Housing Element, municipal code updates—particularly those related to Coastal Act compliance—and the development of best practice manuals and other policy tools. Our team has deep expertise in this area. **Surabhi Barbhaya** has led and authored General Plans, Specific Plans, Zoning Codes, and Objective Design Standards, and brings strong knowledge of emerging legislation and implementation best practices. **Elizabeth Cobb** and **Denise Truong** bring valuable experience in coastal permitting, with Denise having previously served in the California Coastal Commission's permitting division. **Cassie Bretschger** adds to the team's capabilities with her experience on airport-adjacent projects and familiarity with ALUC regulations and processes.

Ultimately, the City is seeking planning partners who can work independently, understand both local and state regulatory frameworks, and contribute meaningfully to the implementation of the City's General Plan, Zoning Code, and Coastal Program. Kimley-Horn's collaborative approach and broad expertise allow us to quickly mobilize, scale our team to meet changing needs, and maintain a consistently high level of responsiveness and service quality.

#### **Approach to On-Call Contracts**

Our on-call approach is customized to meet the unique needs of each assignment. We assign dedicated task order managers to ensure timely execution and the right expertise for both simple and complex tasks. Kimley-Horn's "castaheads" system optimizes resource allocation, confirming that projects are staffed efficiently, delivered on time, and within budget.

#### **Key Elements of our Service**

- **Rapid Mobilization:** We quickly identify the right personnel and subconsultants, leveraging in-house experts to provide timely, high-quality technical analyses
- **Ongoing Communication:** We prioritize continuous collaboration, addressing challenges and ensuring the production of clear, legally defensible planning and environmental reports
- **Senior-Level Commitment:** Our senior management maintains close coordination with the City, confirming technical accuracy and monitoring budget and schedule

# ON-CALL PROFESSIONAL PLANNING SERVICES— STAFF AUGMENTATION (NO. 25-39)

- **Responsiveness to Stakeholders:** We engage with agencies, regulatory bodies, and the public throughout the project to address concerns
- **Flexibility and Adaptability:** Our approach is tailored to each project, adjusting as needed for optimal outcomes

From the start, we work closely with the City to understand its goals, review available information, and visit the project site to identify constraints. This allows us to create a clear, detailed scope of work, minimizing engineering changes and costly surprises.

## Key Service Elements

## Timely Execution

In completing our scope of work, we will focus on the timely execution of our duties and follow the project from conception through project approval. We will accomplish this through effective communication and use of our available and experienced staff. The assigned project manager will inform City staff of work status on a bi-weekly basis through phone conversations, email dialogue, formal project status reports, and regularly scheduled meetings. Our proposed staff were carefully selected for their experience and proven ability to work as a team. They are committed as the primary contributors to the work.

## Advanced Notice Requirements

We understand the nature of being on-call for our clients requires us to be responsive within certain timeframes. When project scope and fees are requested, we anticipate our response time to be between 48 hours and one week to prepare the scope and fee, depending on the complexity of the project at hand. We will respond to phone calls and emails within the same day of receipt, but no longer than 24 hours. When tasks are received, we will coordinate with the City's project manager and determine an appropriate schedule on a project-by-project basis that is in line with the City's goals and expectations.

## Effective Communication

Communication between our design team and the City is critical to thoroughly understanding your vision and implementing the innovative and cost-effective solutions that our team is known for. Our previous experience has taught us adherence to demanding schedules and the importance of communication. Effective communication begins with listening to the City's ideas, concerns, and goals for each project. Making certain that our team and your staff are on the same page throughout the course of the project will help avoid or mitigate potential problems or issues that might arise.

## Schedule and Budget Control

Nationally, Kimley-Horn's repeat client base accounts for more than 90% of our work. This high level of repeat clients attests to our ability to provide our services within project budgets and schedules as well as our ability to provide a consistently high-quality work product. From our understanding of your on-call services and our experience providing on-call services for other local cities, we have developed an approach to each project we are assigned to, which typically involves significant stakeholder input throughout the project life cycle. Each project is managed in such a way that schedule and budget are at the forefront, to make sure deadlines are observed throughout. We provide progress reports and updates at appropriate intervals such that the client is informed of project progress throughout the project.

## ON-CALL PROFESSIONAL PLANNING SERVICES— STAFF AUGMENTATION (NO. 25-39)

In addition, face-to-face meetings, phone calls, and email communication are done on a regular basis as additional methods to keep everyone informed and on the same page.

### Schedule

Critical elements in maintaining a schedule include a clear definition of the team members' responsibilities and frequent communication relative to achieving goals. This begins with the preparation of a detailed schedule that includes milestone completion dates for specific tasks and the overall project. We will develop for your project, as we do for every project, a work plan that allocates commitments by individuals for each task.

Twice monthly, our system generates a Project Effort Report showing effort expended by task. This internal control allows us to make any adjustments that may be necessary to maintain schedule and stay within budget. To meet schedule and minimize down time, we utilize projections of staffing needs weekly, monthly, and every six months to verify we have the resources in place to meet the City's needs.

### Staff Availability

Kimley-Horn employs a firmwide workload forecasting system—weekly, monthly, and six-month—to manage staff availability and resource allocation for successful project delivery. Our "castaheads" system tracks project milestones and staff commitments, enabling proactive workload management. This tool has been effectively used in local projects, allowing us to anticipate and address resource needs well in advance. Once the project gets underway, our project manager Surabhi Barbhaya, AICP, LEED AP and our proposed task leads will conduct weekly check-ins to maintain proper resource allocation. Our project managers are hands-on and on top of day-to-day operations and activities completed.
