November 3, 2021

Resident/Property Owner
Cannery Village

Dear Resident/Property Owner;

On April 27, 2021, the City Council approved changing the designation of 31st Street and 30th Street, between Villa Way and Lafayette Avenue, to a two-way street.

Since the change was made, Public Works Department staff has received concerns from locals and business owners on 31st Street that the change in circulation to a two-way street has caused incidents of traffic conflicts, safety issues and parking problems. Staff has reviewed the circulation and the operation of 31st Street and has determined that traffic conditions would improve with this portion of 31st Street being restored to the previous operation as a one-way street in the westerly direction. No changes are proposed for 30th Street.

The City Council will be considering this item at their meeting scheduled for November 30, 2021 in the City Council Chambers, 100 Civic Center Drive, Newport Beach. If you should have any questions regarding this meeting, please contact me at (949) 644-3329.

Sincerely,

Antony Brine, P.E.
City Traffic Engineer
