Subject: Cell Towers

Newport Beach has crummy reception for cell phones, we need more cell towers, vote yes this Thursday for new cell towers!
Newport Beach 5G is coming, and it's going to need a lot more cell towers.

Subject: Planning Commission Agenda Item #3 on 5/17 discussing cell phone coverage

Dear Newport Beach Planning Commission and City Council,

At the Planning Commission meeting on 5/17, agenda item #3 discusses permits to install two 43-foot-tall monopoles at 1600 Newport Center Drive. While this helps with coverage for Fashion Island Shoppers, it ignores the residents of Newport Beach who have poor cell phone coverage.

As a Newport Beach resident, having adequate cell phone coverage in my home is important to my family and me.

I urge you to only approve additional cell towers in commercial areas after the telecommunication companies have added small antennas to the street poles in residential areas with poor coverage.

Thank you for your consideration.

Regards,

John Prichard

I am glad you appreciate good cell coverage, as I do as my only phone.

I understand that Verizon is looking on adding many street light poles and that this is the first of many. They are looking to see what kind of objections there will be. If you like the poles, then I suggest that you attend the PC hearing and speak in favor, as I suspect their likelihood of installing more will depend on these successes.

Dear Newport Beach Planning Commission and City Council,

At the Planning Commission meeting on 5/17, agenda item #3 discusses permits to install two 43-foot-tall monopoles at 1600 Newport Center Drive. While this helps with coverage for Fashion Island Shoppers, it ignores the residents of Newport Beach who have poor cell phone coverage.

As a Newport Beach resident, having adequate cell phone coverage in my home is important to me and my family. I urge you to only approve additional cell towers in commercial areas after the telecommunication companies have added small antennas to the street poles in residential areas with poor coverage. See picture of antennas near PCH and Dover below — these antennas are barely noticeable but increase the likelihood of being able to make an emergency phone call in the event of a power or network failure in my home.

Sincerely,

Anil Tiwari

Dear Newport Beach Planning Commission and City Council,

At the Planning Commission meeting on 5/17, agenda item #3 discusses permits to install two 43-foot-tall monopoles at 1600 Newport Center Drive. While this helps with coverage for Fashion Island Shoppers, it ignores the residents of Newport Beach, and neighborhoods like Corona Del Mar, who have poor cell phone coverage.

As a Newport Beach resident, having adequate cell phone coverage in my home is important to me and my family. I urge you to only approve additional cell towers in commercial areas after the telecommunication companies have added small antennas to the street poles in residential areas with poor coverage. These new towers should also include the 3rd and 4th largest cell phone networks, T-Mobile and Sprint, who, after they merge will be almost as large as AT&T and Verizon.

Sincerely,

Mark and Carol Abram
