## **Statement of Interest**

**Janet M. Ray- February 1, 2019**

Having grown up in Corona del Mar, my roots are deeply entwined in this community and I would like to be able to give back by serving on the Board of the Library Trustees for a second term. During the past 30 years, I have devoted much of my time to a number of non-profit boards such as Discovery Cube, formally Discovery Science Center, MIND Research Institute, Foundation for the Great Park, Orange County School of the Arts, Pacific Symphony Youth Ensemble Board, Balboa Performing Arts Foundation and Arts OC Board. I have derived much experience, valuable connections as well as pleasure from being an active and integral part of these various organizations.

When I went to Harbor View Elementary in the 1950's, I used the tiny library on Carnation Avenue. If I thought at 7 years of age it was small, it really was small. My father-in-law, James D. Ray, builder, actually built the Peninsula branch of the library in the 1950's on Island Avenue down the street where we currently live on Bay Island. Then, in the 70's, my husband, Walkie Ray's J. Ray Construction Company, built the Fashion Island library branch in Fashion Island on San Clemente Drive which served our community until the Main Branch on Avocado was built. I have seen a major transformation in my lifetime thus far. The Library has blossomed into even more than a Library.....it is the Newport Beach Cultural Center.

To the point, our Newport Beach Public Library has become a hub for educational and cultural activities in Newport Beach with visitation comparable to our beaches and other beautiful recreational attractions for which our City is known around the world. With my experience in the non-profit world in Orange County, the value I could bring is connections to resources that could bring additional diverse and exciting programs to our NB Library. As one of the founders of Discovery Cube almost 30 years ago and currently the Chair of the Innovators, its major support group, I have access to a wealth of science and math-related programs including interactive exhibits that could be brought to our City. As a matter of fact, Discovery Cube now has a presence in Newport Beach at the Fun Zone called Ocean Quest. I was instrumental in this effort and am currently the Chair of the Visionary Committee. We are exploring many exciting ocean-related educational opportunities on this site. My connection with the Cube, OCSA, Arts OC and Pacific Symphony provide further resources which could enrich the cultural tapestry unfolding at our Library.

Another aspect of my experience is the knowledge of what will work well and what will not. Over 10 years ago, I was Chair of Ballet Pacifica which, as it turned out, was not financially sustainable. Closing an organization was a painful process but understanding fiscal realities and dealing with them is an important component of understanding the big picture. More recently, I had a similar experience with the folding of the Balboa Performing Arts Theater Foundation. Recognition of financially responsible programming is a valuable asset when planning for the future.

As a parent of 5 grown children and grandparent to 11 (to date), the importance of educational enrichment through public programming such as provided by the Library Foundation is paramount. As mentioned earlier, I grew up in Corona del Mar as a child and left briefly to attend Stanford. After getting married, we lived in Irvine for 5 years but moved back to Corona del Mar in 1983. I have lived in Newport for a grand total of 51 years!! For the majority of this time, I lived in Corona del Mar, the eastern region of the City, but for the last 14 years, we have lived on Bay Island which is in the western region. With this move, our circle of friendship expanded hugely. While the center of our lives shifted to an area further from the Main Branch of the Newport Beach Public Library, I now live right by the Balboa Branch. I would look forward to being part of the project of rebuilding this branch. Serving on this Board of Library Trustees for a second term would be an honor and privilege for me.

Leilani,

Thanks for the information.

The only addition would be serving the year on the City Arts Commission, and also on the Decorative Arts Board of Directors for an additional year and Grants committee.

**Dear Colleagues,**

I am very excited to apply for an opportunity to keep our city's library system and initiatives thriving. Libraries are one of the best assets for education, community and innovation. I know this because my whole career and upbringing would not be possible without access to libraries.

The past 10 years I have helped several dozen business communities and thousands of students thrive. I got my start in 2010 when I was awarded the EMPACT 100 award from the White House . I then worked with Steve Case/White House backed Startup America to launch entrepreneurship and education programs all across California.

On the community impact level I have been blessed to have worked locally with the Newport Beach Foundation. As a founding board member I have been involved with communication and marketing endeavours. I also help serve our state's greater educational needs by serving on UC Irvine's schools business school advisory board committee for innovation.

I sincerely thank you for reviewing my application and considering me for this opportunity.

Have a great day!
