Good Afternoon Traci,

I have reviewed Mr. Mosher's comments regarding his confusion with our statement about Fire Prevention inspections during the October Civil Service Board meeting. Let the record reflect that upon further review we could have stated that more clearly. Mr. Mosher's guess that 101 property violations had been found out of 276 wildland inspections, for which, on October 1 notices were sent regarding 63 of those violations would be correct. Please pass this clarification along to the members of the Civil Service Board for review and approval.

Thank you,

JUSTIN CARR
