I would love to serve the city arts commission because of my passion for art, history and traveling. Since I was a little girl, I have always been fascinated with Art History. During my travels, I have visited several museums and believe that the art in each city is very significant and important. Art represents the culture, history and beauty of a city. Though I went to school to beome a lawyer and engineer, and not an art history major, I was able to study the historical significance of Art while pursuing these degrees. My analytical skills developed in law and engineering school could serve the Art commission well. Further, I am civically minded and belive in giving back to my community.

As a citizen born and raised in Newport Beach, I'm looking to take on an active role in civic life. A published writer since age 11 when I started writing movie reviews for the Daily Pilot, my goal is to share my love of artisitic expression while creating opportunities for fellow creatives with and for the city and greater community. I have published nine books to date, with my 10th due to publish in June 2021. My work is sold at local businesses including Lido Village Books. As a graduate of the 2020 Distinguished Citizens Program, I'm familiar with the City's infrastructure and understand how all the moving parts fit together. With this approach, I believe I will add value to the City Arts Commission.

I grew up in Newport Beach and returned after law school to work and raise my kids here. Participating in the DCP program through the Newport Beach Foundation peaked my interest in learning more about our City and continuing to be an active member in my community. I have enjoyed, and continue to find value in my career as a lawyer in the public sector for the County. I am interested in the ways in which governments interact between the state, county and city levels. As a lawyer, I am a strong advocate for my clients. I listen to all sides of an argument before making a decision and I get deals done by knowing what points are deal breakers and which points can be compromised. I would bring these skills to the City.
