Hi Jennifer -

I have a few grammatical corrections to the minutes in addition to Chair Kenney's.

1. on page 3, it should be "...they report violators inside the..." (not insides)
2. on page 6, under Functional Area 3, it should be "...University of California (UCI is conducting..." (not are)
3. on page 7, under item 7, the sentence..."The ad hoc committee had a discussion with a hydro engineer, who was hired by Mr. Palmer Luckey, who is very knowledgeable..." would be better written if it was clear that it was Palmer that was not the very knowledgeable one, but rather the hydro engineer. Suggest: The ad hoc committee had a discussion with Mr. Palmer Lucky's hired hydro engineer who is very knowledgeable...
4. on page 7, under item 8, last paragraph, it would be better if this paragraph was split into two to separate the two different topics.
