### 2019 Water Rate Study

The Utilities Department is leading the effort to review the rates associated with the Water Enterprise Fund. The previous water rate study was completed in 2009 and the last rate increase for water users was in 2014. The purpose of this presentation is to present a PowerPoint summary of the financial analysis, the draft water rates, receive input, and seek the City Council's direction to bring back the item as a formal City Council agenda item.
