CD2020-002 (PA2020-005)
Site Location: 619 36th Street**

Project Summary

A coastal development permit to demolish an existing single-family residence and construct a new three-story, 2,762-square-foot, single-family residence with a 442-square-foot, two-car garage. The project includes hardscape, drainage, landscaping improvements, and accessory structures. The project also includes a reinforced bulkhead with cap for coastal hazards protection. The proposed residence complies with all applicable development standards including height, setbacks, and floor area limits. No deviations are requested. The subject property is bisected by the coastal permit jurisdiction boundary resulting in a portion of the front patio accessory improvements and the bulkhead improvements being within the Coastal Commission's permit jurisdiction and requiring their review.
